

The
**Electrical
Board** of Missouri
and Illinois

EDUCATION COURSES

2017-18 SCHEDULE

Providing Educational Value to the Industry for 40 years!

We hope that by making our class schedule accessible via email, you will forward easily to your co-workers, customers and industry associates who may be looking for these seminars/classes which offer pdh's (engineers), peu's (contractors) and general knowledge electrical classes for the industry, which are so important to the development of our careers.

(If you would like a copy of our printed educational brochure), please email your name and address to annie@electricalboard.org or call 636/305-6434.)

****We do need a minimum number for EACH class so don't delay if you are interested in registering. We must decide if we have enough to run classes 7 days PRIOR to class scheduled start, so your registration could make a difference.**

CLASSES

*(*Some classes are held only ONCE a year...in FALL or SPRING only.)*

READING ELECTRICAL CONSTRUCTION DRAWINGS (FALL only)	PAGE 13
PRACTICAL APPLICATIONS OF ELECTRICAL EQUIPMENT & DEVICES (FALL Only)	PAGE 4
FUNDAMENTALS OF ELECTRICAL THEORY (SPRING Only)	PAGE 5
ELECTRIC POWER SYSTEMS (Fall Only)	PAGE 6
UNDERSTANDING MOTOR CONTROLS (SPRING Only)	PAGE 6
VARIABLE FREQUENCY DRIVES (FALL Only)	PAGE 7
GROUNDING	PAGE 8
VOICE/DATA COMMUNICATIONS SYSTEMS (FALL Only)	PAGE 9
UNDERSTANDING THE NATIONAL ELECTRICAL CODE (2017)	PAGE 10
NEC CALCULATIONS (2017) (SPRING Only)	PAGE 11

HALF OR FULL DAY SEMINARS

*****See Page 17 for half-day seminars offered in St.***

Louis, Cape Girardeau, Columbia, MO AND Mt.

Vernon and Springfield, IL

HARSH AND HAZARDOUS AREA LOCATIONS	PAGE 7
PROTECTION OF ELECTRICAL SYSTEMS	PAGE 12
LIGHTING CONTROLS FOR NONRESIDENTIAL BUILDINGS	PAGE 12
TRANSFORMERS	PAGE 13
ELECTRICAL SHOCK & ARC FLASH PROTECTION	PAGE 14
ARC FLASH CALCULATIONS PROCESS AND PITFALLS	PAGE 14

REGISTRATION FORM

PAGE 16

*Please scan/email to annie@electricalboard.org.

If faxing registration to 636/305-6430, we ask that you call to confirm we received your fax.

**Electrical Board Accepts Mastercard, Visa and American Express
– call office if you wish to pay by credit card.**

We also offer other seminars throughout the year including:

Renewable Energy Summit	Page 17
Electrical Safety Symposium	Page 17
Energy Efficiency Workshop	Page 17
Emerging Illinois Energy Topics	Page 17

To: *Industry Associates*

From: *Keith Cooper, Chairman
The Electrical Board Education Committee*

*The Electrical Board of Missouri and Illinois (EBMI) is entering its **40th year** of providing educational courses on various electrical topics to the industry.*

We offer courses that provide useful and practical information. Hopefully, these courses will assist participants with the knowledge enhancement process, which is so vital to the continued success of the individual, and increase their contribution to their firm.

*Our emphasis is on the **operation and applications** of the various electrical components being used in the industry. These courses are not intended as “manual skills training” for individuals but rather emphasize the theory, principles and applications associated with the various electrical components and systems that are discussed. Introduction of new and changing technologies will also be presented wherever possible.*

If you have any questions concerning the courses, please call the Electrical Board office at 636/305-6434.

I UNDERSTAND THESE COURSES DO NOT ADDRESS WIRING SKILLS AND PROFICIENCIES, AND THAT THE ELECTRICAL BOARD, ITS OFFICERS AND INSTRUCTORS ARE HERE-BY RELEASED FROM ANY LIABILITY ARISING FROM ANY USE OR APPLICATION OF THE KNOWLEDGE GAINED FROM THESE SEMINARS/COURSES.

REGISTRATION PROCEDURES & CLASS INFO

- 1) ****To confirm your position in a class/seminar, the easiest way is to complete registration form on page 16 and:**
 - *Scan/email it to annie@electricalboard.org or
 - *Fax this form to 636/305-6430 (please call afterwards to confirm it was received!) or
 - *Mail to EBMI, 900 S. Highway Dr.-Ste. 306-Fenton, MO 63026
 - *If you call in to make a registration, please note we must fill out ALL information on form, so it may be easier to scan/email it to us.
- 2) **Advanced rate given ONLY if your REGISTRATION FORM is received 2 weeks prior of class.** (Payment can follow later.) If form is not received two weeks prior to class, the late registration fee will be applied.
- 3) **Courses will be canceled one week prior to class start, if there is not sufficient enrollment.** This allows time for others to transfer to another class. 100% refund is given should we need to cancel your class. Each course has a minimum number of students that must be reached before we can offer it, so please make sure you send in your registration form early as this helps in determining if a class will be held! ONE registration can make a difference!
- 4) **Payment must be received by the FIRST night of class,** unless you call EBMI in advance to indicate payment is being processed within your company and full payment will be received shortly after class begins. We realize some companies cannot process as quickly, so we will work with you.
- 5) **We do accept Mastercard, Visa and Amex but we ask that you call us when using credit card and we will forward receipt to you.**
- 6) Please understand that for reasons beyond our control, some classes may be cancelled and rescheduled, so **your class may go one or two weeks past the nights shown in the booklet.** Most of our instructors work full-time and assist us in the evening. Sometimes, they may be called out of town with business or the weather may deem it necessary to cancel class. We ask you to understand that the possibility for such changes might occur during your class and may cause you to go a few classes past the date scheduled in booklet.
- 7) **Changes in Jefferson County PEU requirements:** Students must have 24 contact hours – (12 peu’s) per 3 year cycle... (New licensing renewal cycle -- 2016-2018). 12 code peu’s OR 8 code/4 elective peu’s (shown with each class/seminar). They will allow only 4 peu’s to be carried over to next cycle. Students must attend 100% of the actual classroom instructions. They will allow a student to be absent 10% of the required hours, but only for reasons of personal illness, illness or death in their immediate family or hazardous road conditions. **It is the STUDENTS’ responsibility to submit certificate or letter to Jefferson County office WITHIN 30 days AFTER class ends or they will not approve at later date.**
- 8) **REFUND POLICY -** If you withdraw before the class starts, we will refund the enrollment fee minus the registration fee. After the first night of class, you will receive 50% of enrollment fee. After the second night, 25% will be refunded. **No refunds will be made after the third night of class.** Substitutions can be made.

GRADING POLICY -Each student, provided they attend the required number of classes (80%) and perform coursework to pass the class, will receive a certificate of completion for this class. Many companies use this for reimbursement. However, if your company needs a letter showing the student's grade and attendance record, in addition to the certificate of completion or attendance, please check the attendance and grade information on registration form. This must be done in advance of the class!! We must also be provided with contact name. If they attend the classes, but do not pass the course, they will receive a certificate of attendance. If they are unable to attend the required number of classes, they will not receive a certificate. Each instructor will go over the required number needed on the 1st night of class, so please pay close attention.

PRACTICAL APPLICATIONS OF ELECTRICAL EQUIPMENT & DEVICES

(Offered only in the Fall)*

INFORMATION: This course provides a working knowledge of all segments of the electrical industry and how these segments interact in the construction and MRO markets. It gives a hands-on overview of electrical products and their applications for industrial, commercial and residential applications. It is ideal for warehouse, clerical and purchasing personnel (as well as entry level sales personnel) desiring an understanding of the electrical construction industry and its practical applications. It includes terminology and definitions put into laymen's terms for a basic understanding of our industry.

TIME AND DATES:

Sept. Class

Tuesday

6:00-8:30 p.m.

8 Sessions

Begins Sep. 19, 2017

and ends Nov. 7, 2017

PLACE:

Frost Supply

2429 Schuetz

Maryland Heights, MO 63043

INSTRUCTOR:

DAN ASARO

Frost Supply

COST: Advanced - registrations must be received 2-weeks prior to class start.

	<u>Advanced</u>	<u>Late</u>
Employees of non-member firms	\$ 260	\$ 310
Employees of Electrical Board member firms	\$ 200	\$ 250

Includes study manual, certificate of completion and registration fee of \$75 which is non-refundable.

REGISTRATION FORM ON PAGE 16

FUNDAMENTALS OF ELECTRICAL THEORY

(Offered only in the Spring)*

Course information: The course is designed and will be taught to provide a fundamental understanding of the principles, terms, physical laws and mathematical concepts used to explain electrical circuit behavior. Areas covered will be an overview of D.C. and A.C. electrical theory and introduces the student to electrical components and magnetic concepts, Ohm's Law, Kirchhoff's current and voltage Laws, and the calculation of single phase and three phase power. This instruction will be done with a short lecture on subjects and the class labs done by the students working as teams to obtain and record / analyze these results. Electrical and jobs site safety will also be covered for the students well being on jobsites. Labs will be taken from workbook. The companion main text will be the knowledge reference for lectures, which will be short and focused. Homework will be taken from workbook and instructor written questions. Questions will be completion type with emphasis on analyze and calculations. These will be used to determine satisfactory completion of course.

1. Math/Algebra review
 - Basic Electrical Concepts
 - Power in AC Circuits
2. Basic Circuit Components
 - Three Phase AC Circuits
3. Circuits, Laws and Measurements
 - Inductance
4. Multiple-load Circuits
 - Capacitance
5. Magnetism and Electromagnetism
 - Transformers, Motors (AC, DC)

TIME AND DATES:

Now held in Spring only.

Feb. Class*

Wednesday

6:00-8:30 p.m.

10 sessions

Begins February 7, 2018

Ends on April 11, 2018

PLACE:

EBMI

900 S. Highway Drive – Ste. 306

Fenton, MO 63026

INSTRUCTOR:

MILT MURRY

COST: Advanced - registrations must be received 2-weeks prior to class start.

	<u>Advanced</u>	<u>Late</u>
Employees of non-member firms	\$ 290	\$ 340
Employees of Electrical Board member firms	\$ 230	\$ 280

Includes study manual, certificate of completion and registration fee of \$75 which is non-refundable.

REGISTRATION FORM ON PAGE 16

ELECTRICAL POWER SYSTEMS

PDH: 25 / PEU: 12.5

(OFFERED ONLY IN THE FALL*)

INFORMATION: This course is directed to maintenance personnel, electrical designers, electrical contractors, electrical distributors, but not geared to engineers. More for those interested in acquiring a BASIC knowledge regarding the design of electrical power systems. Focus is on commercial/industry low voltage systems, not residential. Some math background is involved for this class. Book will be used for reference only.

Employees of non-member firms	\$ 360	\$ 410
Employees of Electrical Board member firms	\$ 300	\$ 350

UNDERSTANDING MOTOR CONTROLS

PDH: 20 / PEU: 10-code

(OFFERED ONLY IN THE SPRING*)

INFORMATION: This course is designed to teach a fundamental understanding of standard Motor Control terminology and equipment design. The basic operation of various motors will be presented. However, the major emphasis of this course will be to understand how and why to correctly control a motor. Considerable emphasis will be placed on relating the physical motor control components to symbols on drawings and how they interrelate in schematic or ladder diagrams. Components discussed in this course will include, but not be limited to, circuit breakers, disconnects, fuses, starters, relays, timers, limit-switches, push buttons, starting transformers and enclosures.

Employees of non-member firms	\$ 300	\$ 350
Employees of Electrical Board member firms	\$ 240	\$ 290

VARIABLE FREQUENCY DRIVES

PDH: 16 / PEU: 4 Elective

(OFFERED ONLY IN FALL*)

INFORMATION: This course is designed to provide a practical knowledge of Variable Frequency Drives and of the Drive Applications. The intent of this course is to familiarize students with the features of different types of drives, active demo programming is included throughout the course.

1. Types of Variable Speed Drives
2. What is an Variable Frequency Drive
3. VFD functional drawings & macros
4. Power Switching Devices
5. Protective Devices & Circuits
6. Application Considerations, Interface Capabilities, Set-up Adjustments
7. Applications associated with HVAC and pumping industries
8. Programming, Troubleshooting and Preventive Maintenance

Sept. Class

Tuesday – 8 Sessions
6:00-8:00 p.m.
Begins Sep. 19, 2017
and ends Nov. 14, 2017
(No Class Oct. 31st)

**March Class

****Added for 2018**

Tuesday – 8 Sessions
6:00-8:00 p.m.
Begins March 13, 2018
And ends May 1, 2018

PLACE:

Control Technicians, Inc.
102 Trade Center Dr.,
St. Peters, MO 63376

INSTRUCTOR:

PAUL TUCKER
Control Technicians, Inc.

	<u>Advanced</u>	<u>Late</u>
Employees of non-member firms	\$ 300	\$ 350
Employees of Electrical Board member firms	\$ 240	\$ 290

HARSH and HAZARDOUS AREA LOCATIONS

PDH: 4 / PEU: 2- code

(Half Day Seminar)

INFORMATION: This Seminar will provide a basic understanding of Harsh and Hazardous Areas; how they are defined, proper product installation and maintenance, and protection methods in accordance with NEC 500-516.

1. Importance of Properly Installed Explosion Proof Equipment
2. Components of Combustion
3. NEC Classifications of Hazardous Areas
4. Equipment for Hazardous Areas
5. Seals, Code Changes for Articles 500-516

Sept. Class

Thursday, October 5, 2017
8:00 a.m. – 12:00 noon

PLACE: - EBMI Office

900 S. Highway Dr.- 63026

INSTRUCTOR:

KURT SCHULZ

	<u>Advanced</u>	<u>Late</u>
Employees of non-member firms	\$150	\$200
Employees of Electrical Board member firms	\$100	\$150

GROUNDING

PDH: 10 / PEU: 5 Code

INFORMATION: This course is intended to provide a clearer understanding on the subject of Grounding. The basic physics of grounding will be reviewed and compared to the National Electrical Code. We are recommending this course to electricians, electrical contractors, consulting engineers, utility and industrial maintenance personnel.

1. Definitions; Purposes; Physics; Electrical Systems
2. Grounding Electrical Systems; Main Bonding Jumpers; Clearing Ground Faults & Short Circuits
3. Grounding Electrode Systems; Equipment Grounding Systems;
4. Separately Derived Systems
5. Grounding at more than One Building; Ground Fault Protection; Healthcare; Special Locations

TIME AND DATES:

Sept. Class

Thursday
6:00-8:00 p.m.
5 Sessions
Begins Sept. 21, 2017
and ends Oct. 19, 2017

Feb. Class

Thursday
6:00 -8:00 p.m.
5 sessions
Begins Feb. 8, 2018
And ends on March 8, 2018

PLACE:

Electrical Board Office
900 S. Highway Dr – Ste. 306
Fenton, MO 63026

INSTRUCTOR:

KEITH COOPER
McClure Engineering

COST: Advanced - registrations must be received 2-weeks prior to class start.

	<u>Advanced</u>	<u>Late</u>
Employees of non-member firms	\$ 310	\$ 360
Employees of Electrical Board member firms	\$ 250	\$ 300

Includes study manual, certificate of completion and registration fee of \$75 which is non-refundable

REGISTRATION FORM ON PAGE 16

VOICE/DATA COMMUNICATIONS SYSTEMS

(NEED MINIMUM OF 10 TO HOLD THIS CLASS) OFFERED ONLY IN THE FALL*

PDH: 22.5 / PEU: 11.25 –code

INFORMATION: This course is designed to provide a practical knowledge of Local Area Network cabling applications. The EIA/TIA Commercial Building Wiring Standards will be explained and simplified, as well as pertinent requirements of the National Electrical Code. The terminology of Networking often obscured by “jargon” will be explained clearly and simply. State of the art cable termination equipment for both copper thru CAT 6a (10GIG) and fiber optics will be demonstrated. Wireless and CCTV will also be discussed.

1. Introduction to UTP cabling / Principles of Transmission / Design Considerations
2. EIA/TIA Standards – Category 5e, 6, and 6a (10GIG)
3. Introduction to Networks and Wireless Networks
4. Coaxial Cable applications / CCTV Changes in the Industry
5. CCTV continued, Live demo of IP based system / Design Considerations
6. Tools and Hardware Needed for the Job / Fire stopping
7. Introduction to Fiber Optics – Theories, Principles and Installation Practices
8. Fiber optic tools and termination equipment - Epoxy Field Polish vs. Pre-Polished Connectors
9. Continuation of Fiber Infrastructure and Terminations / Demo of Fusion Splicing
10. Copper and Fiber Optic Testing and Troubleshooting

TIME AND DATES:

Sept. Class

Monday

6:00-8:30 p.m.

9 Sessions

Begins Sep. 25, 2017

and ends Nov. 20, 2017

PLACE:

Frost Supply

2429 Schuetz

Maryland Heights, MO 63043

INSTRUCTOR:

JOHN MACARTHUR

Frost Supply

COST: Advanced - registrations must be received 2-weeks prior to class start.

	<u>Advanced</u>	<u>Late</u>
Employees of non-member firms	\$ 360	\$ 410
Employees of Electrical Board member firms	\$ 300	\$ 350

Includes study manual, certificate of completion and registration fee of \$75 which is non-refundable

**UNDERSTANDING THE
NATIONAL ELECTRICAL CODE
(Based on 2017 N.E.C.)**

PDH: 60 / PEU: 30 (12-code) (and 4 code can carryover for next cycle)

INFORMATION: This detailed course is designed to unlock the mystery, clarify the gray areas, and the how and where to apply the code. This class is **based on the 2017 N.E.C.** A study manual and workbook with questions **are included** in class fees.

Please bring your own 2017 Code Book. If you need a 2017 Code Book, add \$95 to the class fees below. This class can fill quickly, so register early if needed.

TIME AND DATES:

Sept. Class

Monday - 20 Sessions

6:00-9:00 p.m.

Begins Sep. 11, 2017

and ends Feb. 12, 2018

(Class will not be held on

Sept. 18th, Dec. 25th and Jan. 1st)

PLACE:

Electrical Board Office

900 S. Highway Dr- Ste. 306

Fenton, MO 63026

INSTRUCTOR:

Rick Heyman

City of St. Louis

COST: **Advanced** - registrations must be received 2-weeks prior to class start.

	<u>Advanced</u>	<u>Late</u>
Employees of non-member firms	\$ 515	\$ 565
Employees of Electrical Board member firms	\$ 455	\$ 505

Includes study manual, workbook with questions, certificate of completion and registration fee of \$100 which is non-refundable

***** (A 2017 Code book is also required. If you need one, please add \$95 to the above class fees.) Order early as we have a limited supply on hand.**

REGISTRATION FORM ON PAGE 16

NATIONAL ELECTRICAL CODE CALCULATIONS

This class is based on the 2017 N.E.C

PDH: 36 / PEU: 18 (12-code) (and 4 code can carryover for next cycle)

INFORMATION: This detailed course is designed to unlock the mystery, clarify the gray areas in performing code calculations. A study manual with questions **is included** in class fees.

PRE-REQUISITE: YOU HAVE TAKEN A CODE CLASS IN THE LAST 3 CODE CYCLES (2011 – 2014- 2017). ONLY CODE CLASSES WITH A MINIMUM 24 HOURS OF CLASS TIME WILL BE ACCEPTED. SUBMIT A COPY OF YOUR CERTIFICATE OF COMPLETION ALONG WITH YOUR REGISTRATION FORM.

A 2017 Code Book is required for this class. If you need a 2017 Code Book, add \$95 to the class fees below.

PLACE:

EBMI Office
900 S. Highway Dr.-Ste. 306
Fenton, MO 63026

TIME AND DATES:

Feb. Class

Monday
6:00-9:00 p.m.
12 Sessions
Begins Feb. 26, 2018
And ends May 14, 2018

INSTRUCTOR:

MICHAEL SMITH – Schaeffer Electric

COST: Advanced - registrations must be received 2-weeks prior to class start.

	<u>Advanced</u>	<u>Late</u>
Employees of non-member firms	\$ 410	\$ 460
Employees of Electrical Board member firms	\$ 350	\$ 400

Includes study manual, workbook with questions, certificate of completion and registration fee of \$100 which is non-refundable

***** (A 2017 Code book is also required. If you need one, please add \$95 to the above class fees.)**

PROTECTION OF ELECTRICAL SYSTEMS

(Full Day Seminar)

PDH: 8 / PEU: 4-code

Conductors: The installation of cables in wood and metal framing, shallow grooves, behind panels that allow access and surface mounted; Installation of cables or conductors in the earth; Explain the effects of chemicals, water, direct sunlight and other conditions; Explain overcurrent protection and short circuit protection; Importance of clearances for feeders and service conductors; Explain why fill ratio is important and affects ampacity of conductors.

Equipment: Sizing equipment for available fault current; how to determine fault current and why it is important; selecting the correct overcurrent devices; importance of signage NFPA 70E commercial not dwellings; the separation of arcing parts from combustible material; explain working clearances; minimizing shock hazards for personnel.

TIME AND DATES:

Nov. Seminar

Thursday, Nov. 9, 2017

8:00 am - 5:00 pm

PLACE: EBMI Office

900 S. Highway Dr.-Ste. 306
Fenton, MO 63026

INSTRUCTOR:

Michael Smith – Schaeffer Electric

	<u>Advanced</u>	<u>Late</u>
Employees of non-member firms	\$ 170	\$ 220
Employees of Electrical Board member firms	\$ 110	\$ 160

LIGHTING CONTROLS FOR NONRESIDENTIAL BUILDINGS

(Co-sponsored with the Illumination Engineering Society (IES) – St. Louis Section)

PDH: 4 /PEU 2 elective

(Half Day Seminar)

Description: This seminar will help you identify lighting control strategies based on application needs; Design and commission a lighting control solution; analyze your control solutions in order to satisfy energy code standards and choose appropriate lighting control equipment for your project.

- * Introduction to Lighting Controls
- * Commercial Building Energy Codes
- * Lighting Control Equipment
- * Lighting Control Design

Nov. Seminar

Wednesday, November 15, 2017

8:00 am - 12:00 noon

PLACE: EBMI Office

900 S. Highway Dr.-Ste. 306
Fenton, MO 63026

INSTRUCTOR:

Jeff Stoyanov
Vector Electrical Sales

	<u>Advanced</u>	<u>Late</u>
COST: Employees of non-member firms	\$ 200	\$ 250
Employees of Electrical Board/IES member firms	\$ 150	\$ 200

TRANSFORMERS

PDH: 4 / PEU: 2-code

(Half Day Seminar)

INFORMATION: This seminar will provide a basic understanding of transformer operation, calculations, installation, and NEC requirements.

1. Transformer selection, application and basic calculations.
2. Unit Substation and pad mount transformers.
3. Energy efficient and harmonic mitigation transformers.
4. Installation and application considerations for Transformers

Sept. Class

Wednesday

September 20, 2017

8:00 am -12:00 noon

PLACE:

EATON

62 Soccer Park Dr., Fenton, MO 63026

April Class

CALL EBMI FOR DATE

8:00 am -12:00 noon

INSTRUCTOR:

Greg Haub

Eaton

Employees of non-member firms	\$150	\$200
Employees of Electrical Board member firms	\$90	\$140

READING ELECTRICAL CONSTRUCTION DRAWINGS

3 evening seminar – (*Offered Only in the Fall*)

INFORMATION: This course is designed as an introductory level understanding of electrical construction plans and drawings. This group could include but not be limited to Manufacturers Agents, Utility Personnel, Plant Maintenance, Building Design Professionals, Electrical Estimators and anyone else using electrical drawings.

1. Reading Scales; Floor Plans; Site Plans; Elevations; Symbols
2. Electrical Floor Plans; Wiring; One Line Diagrams; Schedules
3. Relaying; Controls; Details; Auxiliary Systems; Specifications

Oct. Class

Wednesday, Oct. 4, 11 and 18, 2017

6:00 – 8:30 p.m.

PLACE:

Ross & Baruzzini

#6 South Old Orchard Ave., 63119

INSTRUCTOR:

Warren Kohm

Ross & Baruzzini

	<u>Advanced</u>	<u>Late</u>
Employees of non-member firms	\$230	\$280
Employees of Electrical Board member firms	\$170	\$220

COST: Advanced - registrations must be received 2-weeks prior to class start.

Includes study guide, certificate of completion and registration fee of \$50 which is non-refundable.

ELECTRICAL SHOCK & ARC FLASH PROTECTION

PDH: 4 / PEU: 2-elective (Half Day Seminar)

INFORMATION: In this half day seminar, Ed will discuss Shock Hazard and Arc Flash Analysis (NFPA 70E-2015 and IEEE 1584) and how Arc Flash is a serious workplace hazard.

What is arc flash?
Discuss arc flash terminology.
Overview of various codes and standards.
Discuss how an arc flash affects daily work activities.
Compare arc flash evaluation methods.
NFPA Tables & IEEE Calculations.

Mitigation techniques – De-energize;
Energized work permit
How to reduce arc energy; Warning signage; PPE for flash protection.
Shock Hazard Analysis: Safe Work Practices; Exposure voltage;
Boundaries; PPE for shock protection;
Energized work permit

Nov. Class

Friday, Nov. 3, 2017

8:00 -12:00 noon

PLACE: EBMI Office

Feb. Class

Thursday, February 9, 2018

8:00 – 12:00 noon

PLACE: EBMI office

Instructor: ED SCHERRY, Scherry Engineering

	<u>Advanced</u>	<u>Late</u>
Employees of non-member firms	\$ 170	\$ 220
Employees of Electrical Board member firms	\$ 110	\$ 160

ARC FLASH CALCULATIONS PROCESS AND PITFALLS

PDH: 3/PEU: 1.5 –elective

Provide an understanding for design professionals who perform arc flash hazard calculations of the evolution of the analysis for the hazardous condition. A distinction needs to be understood as to how a bus is protected in limiting the arcing incident. The arcing fault current is different than the bolted fault current. Arc flash energy is a result of the arcing current, the time that the arc exists and the distance from the arc, as well as maintenance of equipment. Arc flash hazard is not predictable and the calculations are educated approximations. Investigation of the available arc flash energy needs to be accomplished during design and not after the fact. More stringent design and specification of equipment is required. Will learn: What is involved in performing an Arc Flash Hazard Analysis? Discuss some limitations of arc flash evaluation techniques. Demonstrate how protective device adjustments and distance can assist in reducing the arc flash hazard. What engineering techniques can be used to provide mitigation of an arc flash?

Dec. Class

Friday, December 1, 2017

Includes study guide, certificate of completion
and registration fee of \$30 which is non-refundable.

VALUE FOR YOUR COMPANY...

MEMBERSHIP

Why not save YOUR COMPANY money by joining the Electrical Board. If your company is putting in several students, it may make sense for your company to join EBMI as a corporate member. Take advantage of the member rates, which are then available for fall/spring semesters for all of your employees. Check out membership information on our website as well as viewing all current members of EBMI...www.electricalboard.org or call us at 636/305-6434 to learn more.

KNOWLEDGE IS POWER

**We know that everyone's schedules are different, so we have offered half-day and full-day seminars as well as evening weekly courses on a variety of electrical topics to ensure everyone in industry can take advantage of classes/seminars.*

**Our instructors are part of the electrical industry and give you not only the basics for their class, but also invaluable personal experiences.*

OUTLYING AREAS

Are you in an outlying area, but in need of relevant courses in your area? We have several half-day seminars such as Arc Flash, Grounding (provided we can get enough students) that we can work with you to provide in these areas (or others):

ILLINOIS – Springfield, Mt. Vernon, Morton

CENTRAL/ SOUTHERN MISSOURI – Columbia, Cape Girardeau

For more information on EBMI events/education programs, please call the EBMI Office at 636-305-6434 or e-mail bill@electricalboard.org or check our website at www.electricalboard.org.

REGISTRATION FORM

(PLEASE PRINT CLEARLY)

SEPTEMBER - DECEMBER 2017

JANUARY – MAY 2018

Advanced registrations must be received 2-weeks prior to first night to receive advanced rates! Many classes require minimum # of students so the earlier you enroll, the more it helps to determine if a class will be held. We must determine if class can be held ONE WEEK prior to start date. (This form can be mailed or scan/email to annie@electricalboard.org.)

<u>CLASS NAME</u>	<u>REGISTRANT'S NAME</u>	<u>Advanced</u>	<u>Late</u>
_____	_____	\$ _____	\$ _____
_____	_____	\$ _____	\$ _____
_____	_____	\$ _____	\$ _____

(Please make copies of this form ...if more than 3 enrollments.)

CODE Class Participants ONLY: **In addition, I need 2017 Code book @\$95.**

WE ACCEPT

***If paying by credit card, please call EBMI office, 636/305-6434.**

A STUDENT SHOULD UNDERSTAND THESE COURSES DO NOT ADDRESS WIRING SKILLS AND PROFICIENCIES, AND THAT THE ELECTRICAL BOARD, ITS OFFICERS AND INSTRUCTORS ARE NOT RESPONSIBLE FOR ANY LIABILITY ARISING FROM ANY USE OR APPLICATION OF THE KNOWLEDGE GAINED FROM THESE COURSES.

Students attending over 80% of classes and completing recommended course work will receive a **CERTIFICATE OF COMPLETION** at the end of class. For most, this is all that is required after the class. **Students needing PEU's, please see Page 3 – Section 7.** However, for reimbursement, some companies require other information. If so, please check below.
