

WOMEN'S ELECTRICAL BOARD (WEB)

All women in the industry are invited to join!

We have over 80 women in the industry who are members of WEB. Their involvement in leadership positions of the organization, program coordinators and community involvement is strong.

Since 1956, WEB has offered women the opportunity to meet customers and others in the industry who share the same goals and ideas about the electrical industry. WEB averages about 45 for each month meeting, which is a fantastic show of support!

Would you like to meet other women in the industry facing the same challenges as you...juggling career, family and personal commitments. Are you looking for ways to network with others in the industry and make new contacts? Why not attend a WEB meeting (held on either second or third Tuesday evening (September – May) from 5:30 – 8:00 p.m. at a local restaurant and see if this organization is for you!! No commitment to join by attending.

Please email annie@electricalboard.org and she can forward you additional information or call 636/305-6434 to find out when their next meeting will be held. Please email her and she will send out the WEB newsletter to you about this meeting.
