ELECTRICAL BOARD OF MISSOURI AND ILLINOIS

900 S. Highway Dr.-Ste. 203,
Fenton, MO 63026

636-305-6434
bill@electricalboard.org
annie@electricalboard.org
www.electricalboard.org

EMERGING ILLINOIS ENERGY TOPICS:

1) Ameren Energy Efficiency Programs

Springfield Speaker: Agnes Mrozowski, Energy Efficiency Advisor for Ameren Illinois

Mt. Vernon Speaker: Carol Kulek, Energy Efficiency Advisor for Ameren Illinois

This session will provide Ameren Illinois program highlights.

2) Energy Efficiency or Solar Products - Table top vendors will provide 3 minute presentations discussing the benefits and/or features of one of their products. During the breaks, attendees can visit their table tops to seek more information on these products.

3) SEM CASE STUDIES

Springfield Speaker: Mat Emden – Principia College

Lessons learned in building a successful Strategic Energy Management team. How we got buy-in from upper management and the resulting shift in company culture and its approach to sustainability.

Mt. Vernon Speaker: Neal Luhr – Nascote Industries

Will review Nascote's 2018 Compressed Air Leak Studies as well as their new Abatement System that incinerates all of their paint fumes. In addition, Neal will quickly recap both the LED Plug and Play tubes and the Centralized Resin Drying System installed in 2017.

4) IPA PROGRAM

Springfield Speaker: Anthony Star, Illinois Power Agency (IPA) – confirmed

Mt. Vernon Speaker: Brian Cuffle, Ameren Illinois (will summarize IPA program.)

5) Solar Case Study... at Mt. Vernon only:

Speaker: Craig Pals – Tick Tock Energy - Craig will discuss one of their solar projects, initial evaluations for the project, what made it look like a good project to proceed with economically with incentives, rebates, etc.

6) Lighting Controls

Speaker: Tasha Shields - Wattstopper

7) Ameren Innovation Team

Springfield Speaker: Kyle Shoff - Manager, Innovation – Ameren

Mt. Vernon Speaker: Eli Gerson - Innovation Business Analyst – Ameren

Electrification (what it is; benefits of adopting electro-technologies, etc.); Resiliency Services (looking at new ways to deliver increased reliability and voltage control through Microgrids or other offerings). Smart Cities (partnering with communities to deliver outcomes they want.)

TABLE TOP VENDORS

(We encourage all attendees to view products/services before program and during breaks. These vendors help to support these seminars in your area. You can learn of new products that may be able to help your company save money or assist with a problem so make sure to connect with these vendors.)
